## **RESIDENTIAL CONSTRUCTION NOT IN A RECORDED SUBDIVISION PROCESS**

---

### **GENERAL**

The purpose of the residential construction not in a recorded subdivision process is to obtain formal approval by the planning and engineering departments before residential dwellings are ready for construction. The site plan, construction drawings and all information and procedures must comply with the provisions of the Municipal Code, and the Design and Construction Standards. No regulatory permits will be issued and no clearing, grubbing, grading, drainage work or other site improvement will be allowed until the site plan and building permit are approved. Checklists are available on the City's website [www.westjordan.utah.gov](http://www.westjordan.utah.gov).

The Applicant/Homebuilder will need to work closely with the Building, Development, Fire and Engineering Departments in preparing the residential dwelling site plan, construction drawings for any public improvements, and house construction plans.

### **BUILDING PERMIT AND CONSTRUCTION DRAWINGS**

The review of the building permit and construction drawings can be initiated by submitting an application along with the items listed on the residential construction not in a recorded subdivision checklist.

### **CITY REVIEW**

Review times are based upon the plans submitted and number of projects in for review, the first review may take approximately 4 weeks. Subsequent reviews, if needed, will be completed in approximately 2 weeks. After staff have completed their review, the applicant will be contacted to schedule a redline comment meeting.

### **CITY ATTORNEY REVIEW**

Documents that require the Mayor's signature or recordation with the Salt Lake County Recorders office will require review and approval from the City Attorney. All documents are to be original documents.

### **RECORDATION OF DOCUMENTS**

The approved documents will be recorded at the Salt Lake County Recorder's Office. The applicant is responsible for payment of any recordation fees. An appoint is made between city staff and developer to meet at the Salt Lake County Recorder Office to record the necessary documents.

### **PRECONSTRUCTION MEETING**

After all code requirements are met, the community development department will schedule a preconstruction meeting with the applicant, his contractor and city staff. During the meeting a set of approved construction drawings will be given to the applicant, which must be on site at all times during the construction of the project. At this time a land disturbance permit will be granted, and the Building Permit Requirements Form will be signed. Public improvements are subject to city inspections.

**BUILDING PERMIT**

A building permit may be issued after a preconstruction held, erosion control measure has been installed, inspected and approved, applicable impact fees paid and fire department requirements has been met.

**COMPLETION AND MAINTENANCE OF SITE**

Every single family dwelling project must be constructed in accordance with the approved residential dwelling site plan and other drawings, or if the plan has been revised, in accordance with the revised plans reviewed and approved by the City. The site must be maintained in a clean and orderly manner or the City may take legal action.

**CERTIFICATE OF OCCUPANCY**

Pass an inspection by the Building, Engineering, Fire and Planning Divisions before the Building Division will consider issuing a certificate of occupancy.

**EXPIRATION**

The approval of a single-family dwelling site plan expires if a building permit has not be obtained within two (2) years of approval.

**WARRANTY PERIOD**

After final inspections of the public improvements are completed, a 12-month warranty period begins. The applicant is required to meet all requirements specified in the City of West Jordan Municipal Code.

**FINAL INSPECTION**

After the 12-month warranty period, a final inspection of the improvements will take place in accordance with the City's City of West Jordan Municipal Code.

**HILLSIDE DISTRICT OVERLAY ZONE ORDINANCE REQUIREMENTS**

If the site is within the Hillside District Overlay Zone, all requirement of the Hillside Overlay District must be met.
