# MARCH 2023 FINANCIAL REPORT FOR THE FISCAL YEAR 2023

The following financial statements represent the period of July 1, 2022 through March 31, 2023. The statements are unaudited and were prepared in compliance with generally accepted accounting principles. Questions regarding these statements may be directed to the City's Administrative Services Director, Danyce Steck at <a href="mailto:danyce.steck@westjordan.utah.gov">danyce.steck@westjordan.utah.gov</a>.

The purpose of this discussion and analysis is to provide additional information where significant changes or differences have occurred during the reporting period. Funds with no significant change from the prior year or current year budget are not included in this narrative since the financial statements should provide sufficient information to the reader. This narrative is not intended to replace the financial statements but should be used as supplementary information.

#### **REVENUE**

#### **Budget to Actual**

At 75% of the fiscal year, on-going revenue is 84% of budget and total revenue is 91% of budget. Percentage of budget does not trend congruent with the percentage of year expired since property tax is a major revenue source which is distributed in full between November and March of each year.

#### **Change from Prior Year**

It is important to note that most development-related revenue (licenses & permits and charges for service) are now being reported in the new Development Services Fund. In addition, transfers in were reduced as a transfer from the Solid Waste Fund was removed from the budget.

For comparison purposes only, the revenue from the Development Services Fund is included in the table below.

Using the comparative current year-to-date, both on-going and total revenue are 7.1% above the prior year which is below the consumer price index (CPI)\* for this same period which has increased by 8.2%.

#### Property Tax

The majority of property tax is collected in November and December. That said, the City received final distributions in March 2023.

#### Sales Tax

Total sales tax revenue has experienced year-to-date growth of 4.4% over the previous year. This is again slightly below area inflation of 8.2%. Due to the uncertain economic environment of the past two years, the City has used fiscal year 2019 as a baseline year and budgeted 5% year-over-year growth as on-going revenue to support operations. Amounts in excess of this 5% are reported as one-time revenue to support one-time spending (capital projects). Under this practice, on-going sales tax reports a 5% increase (\$992,797) from the prior year and one-time sales tax revenue (growth <5%) reports a 1.8% increase from the prior year (\$78,442).

#### Licensing & Permits

As discussed previously, licensing and permit activity has been moved to the Development Services Fund. This change was initiated by proposed state legislation intended to ensure development fees pay for development-related activities and not general government.

#### Transfers in

Reduced revenue is the result of removing the transfer from the Solid Waste Fund.

#### **Change from Prior Year**

On-going expense is ahead of the prior year by 15%, or \$6,312,563. This increase is due to adjustments in the compensation plan to support retention and recruitment, the addition of several full-time positions, and some reorganization.

#### **CAPITAL IMPROVEMENT PROJECTS FUND (CIP)**

This fund receives its support from impact fees (roads, parks, police, and fire), intergovernmental revenue (UDOT, SL County), and the General Fund.

#### **Budget to Actual**

At the end of the third quarter, expense is at 22% of the annual budget as many of the large projects are still in design or just beginning the construction phase. Transfers in represent the annual payments from the water and sewer funds for the 2022 interfund loans. These payments are made in April of each fiscal year.

#### **WATER FUND**

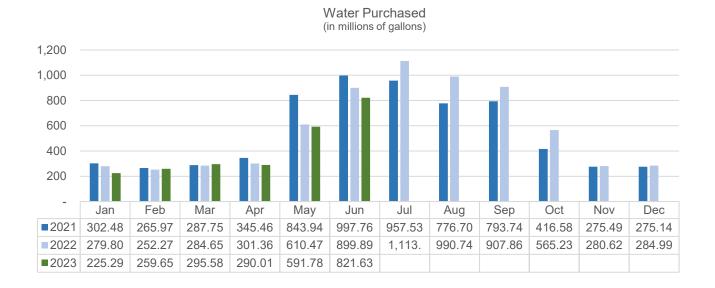

#### **Water Purchased**

The following charts reports the millions of gallons of water the City purchased from Jordan Valley Water Conservancy District. This does not represent any water sold or used by water customers from City-owned wells.

Comparing water purchased from Jordan Valley Water Conservancy District for each calendar year, water consumption is slightly higher than the prior year (8.21% or 502.9 million gallons). Increased use occurred in July – October 2022. In an effort to ensure full use of contract-required water, the City chose to reserve well water for periods when purchased water did not meet demand.

The City is required to purchase 18,500 acre feet per year.

# **WATER FUND (continued)**

#### **Budget to Actual**

At the end of the third quarter, revenue was slightly ahead of budget as the highest water use months are at the beginning of the fiscal year (July – Oct). Water purchased and transfers in (based on water sales) follow a similar pattern. As several large water reservoir projects are just entering the construction phase, capital expenditures are expected to increase over the next few months.

# **WATER FUND (continued)**

#### **Reserves or Net Position**

Reserves increased this fiscal year as a loan from the CIP fund (\$3.8m) was held in reserves to design and construct Zone 6 water storage tank.

Reserves exclude investment in capital assets and only represent reserves available for funding future operations.

#### **SEWER FUND**

Sewer fund reserves are strained as several large capital projects are currently under construction. All projects are not expected to use their entire budgets in the current fiscal year which will allow the utility to retain reserves. The current annual budget anticipates a negative reserve of (\$753,463).

#### **Budget to Actual**

Sewer fees are slightly above budget as is sewer treatment costs. Capital is significantly below budget as construction on the Zone 6 sewer line expansion (\$10m) is still in the design phase and there are several projects that are in the early phases of construction.

#### **Change from Prior Year**

Current year sewer fees have increased as compared to the prior year due to a fee increase effective October 1, 2021. Transfers out have a direct relationship to sewer fees and therefore has reported an increase. Sewer treatment reduced expense change is related to accounting for capital separate from treatment for South Valley Water Reclamation Facility.

#### **SEWER FUND (continued)**

#### **Reserves or Net Position**

Beginning reserves increased this fiscal year as a loan from the CIP fund (\$5.6m) is held in reserves to design and construct the Zone 6 sewer line. A budget amendment will be proposed to decrease system maintenance to relieve some of the financial pressure on reserves.

Reserves exclude investment in capital assets and only represent reserves available for funding future operations.

#### **DEVELOPMENT SERVICES FUND (260)**

This fund was created in response to recent legislative discussions suggesting development fees be segregated to ensure they are applied to development-related activity only and not absorbed by the general government. Revenues consist of development fees excluding impact fees and expense includes the planning and building departments as well as shared services. Shared services consist of engineering, GIS, and other legislative and administrative services that are not exclusive to development but are allocated out of the General Fund to the Development Services Fund on a percentage basis of services provided. This is the first full fiscal year for this fund.
