## **BUILDING DEMOLITION(S)**

A building permit and fee are required for each building demolition. The fee for a building demolition permit is \$188.75 per building.

Follow these steps to expedite your demolition permit:

1. Contact the following and request utility disconnection:
  - Rocky Mountain Power - ph. 888-221-7070
  - Enbridge Gas – ph. 800-323-5517
  - Phone, Cable, and any other service to the building.
2. Contact our Engineering Department to request/verify disconnection from sewer and water. They will email the building department verification of disconnection following inspection. Ph. 801-569-5070.
3. Fulfill requirements with the Department of Air Quality. Attach a copy of your approval letter once you apply for your permit. More info can be found at <https://deq.utah.gov/air-quality/requirements-prior-to-demolition> or by calling 801-536-4000
4. Have the structure inspected by a pre-demolition building inspector who is registered with the health department. Attach a copy of your completed pre-demolition inspection form from the Salt Lake County Health Department. A list of registered inspectors along with more information can be found here <https://www.saltlakecounty.gov/health/construction-contractors/pre-demolition/#process> or by calling 385-468-4100
5. Once you have fulfilled steps 1-3, apply for a demolition permit using our [West Jordan Public Portal](#). You will upload a copy of your approval letter from Department of Air Quality and a completed SLCO pre-demolition inspection form.

If contractor/company disturbs or removes painted or coated surfaces greater than 6 sq ft in a room on the interior or 20 sq ft on the exterior of target housing or child-occupied facilities built before 1978, the company may be subject to the ***new lead-based paint and/or renovation, repair, and painting rule***. Salt Lake County Health Department: 385-468-4100
